## Recommendations made on GST Rate changes by the GST Council

In the meeting held on 10<sup>th</sup> November, 2017, the Council has recommended major relief in GST rates on certain goods and services. These recommendations spread across many sectors and across commodities. As per these recommendations, the list of 28% GST rated goods is recommended to be pruned substantially, from 224 tariff headings [about 18.5% of total tariff headings at 4-digit] to only 50 tariff headings including 4 headings which have been partially reduced to 18% [about 4% of total tariff headings at 4-digit]. Further, the Council has recommended changes in GST rates on a number of goods, so as to rationalise the rate structure with a view to minimise classification disputes.

Service provided using such goods would in any case attract applicable tax.
